

Educational Development Award

Joint Winner: Dr Mohsen Kalantari

Mohsen is a Senior Lecturer in Geomatics Engineering and Associate Director at the Centre for Spatial Data Infrastructures and Land Administration (CSDILA) in the Department of Infrastructure Engineering at The University of Melbourne.

Mohsen is the course coordinator for the Master of Engineering (Spatial) degree where he is responsible for advancing the surveying education at the University of Melbourne. Mohsen leads matters related to accreditation of the ME (Spatial) and the MIT (Spatial) degrees. He engages with the relevant professional and regulatory bodies and maintains a collaboration with them. Mohsen also participates in the Surveying Task Force in attracting students into surveying to ultimately become Licensed Surveyors and ensure the sustainability of the profession. Mohsen is currently supervising 7 PhD candidates in the areas of 3D cadastres, spatial data infrastructures, and spatial enablement. He has also supervised 7 PhD students to successful completion.
